After the phone call to Putin the Trump Whitehouse is superficially "washing hands" with Ukraine and Europe to settle this quagmire. Not true though. Our country is at the heart of the "ROOT CAUSE" Mr. Putin insists to be fleshed out in discussion. Our media simply ignores this main sticking point. Or obfuscates it as a fantasy. But it won't go away even though our country has pivoted to concentrate on China as our main adversary.

Why does our country have this adversarial mentality? Well that's the empire deep state at work there that has taken hold of our political and social welfare since the end of WWII. Instead of concentrating, (as the Chinese have) on our domestic issues with trade, manufacturing and debt servicing. We do our empire whammy on the world with the now tariff fiasco along with our various proxy military fiasco's and sanctioning fiasco's. All piling up without any justifiable good intentions other than trying to maintain our deeply flawed idealism of world dominance.

But our financial stronghold is weakening in the dollar hegemony. How much longer our empire apparatus can lie to the public here and abroad as it has for so long and get away with it is unfolding to be history.
