Wow, that's another awesome system!

I was chatting with Danley a few months back. He has done so much for the DIY community and for audio in general. I wish I had invited him to LSAF 2025 and think I will not forget again to invite him next year.

(Sorry to keep talkin' about LSAF on your thread, just came to mind on Audio Mirrow and Danley)

One of the things I love so much about your systems is your ample use of horns.

Another thing I love is your exquisite taste in aesthetics - your wood choices and the curves and lines in the equipment.

And the third thing I love is your taste in acoustics - the brands and components you chose are top-notch.

Freakin' awesome!
