Becky wrote on Fri, 10 October 2025 15:10I don't store my music but I can play songs very well during the day, afternoon and evening, night is never an exception too. I prefer to use Spotify for all my songs, YouTube doesn't give me what I wanted when it comes to playing music.

Are you saying that your experience with YouTube Music hasn't been that great? What is the experience like? Are there songs that you wanted to play on YouTube, but you couldn't get them on the platform?
