I've heard that there are adults who still watch such movies, are you the type who still enjoys such movies? Which one do you like watching?
I am not interested in watching cartoons right now. I would rather watch some sport events instead or go see some war movies. It is much more interesting to me instead of watching cartoons at my age.
Some people might say that cartoons are for children or they have outgrown them as you said. Well, I don't know if there's lesson to learnt in such movies but the reason why I love to watch cartoons especially Tom and Jerry, it's for the laughter and little fights that follows. I do watch them but not much anymore.
