Hey, mate

I am so sorry about what you've been going through. Back pains can be quite painful and energy draining, but I am happy you are still looking for ways to enjoy songs in such a situation.

It is a good thing that the meds have helped in reducing the pain you've felt. I also wish you the very best when the doctors you've seen find a solution which can bring a permanent end to the pain.

I've always known the Motion 4s as good speakers and pairing them with the Dynamo 300 sub and a cool vintage Marantz receiver is a perfect combo that would deliver good sound quality.

So, at the moment, I think you've got to enjoy what you've got with the Marantz/Martin Logan combo while it is still working while hoping for something better in the future.

Wishing you a swift recovery from the back pains.

George
