In the process of building the BEAST (OTL) from TranscendentSound.Would appreciate the forum members input on resistors as I am about to start to source resistors. 1) Vishay/Dale Metal Film: 1/4 & 1/2 Watt TYPE RN series (RN55D, RN60D, RN65D). For values between 374 and 1M. Are these decent?2) Metal Oxide or Wirewound for the 2 & 3 Watt Resistors. What manufacturer/PN would do the BEAST proud? 3) Wirewound 5 Watt resistors. Same here - any suggestions? ThanksJShoc
