So, for that reason, listening to podcasts that I like is the only way that I can get to achieve my aim of picking out information that I needed from such podcasts. It is as simple as that.

We have the same preference, mate. I am always busy these days to spend an hour or more sitting behind the TV or holding my phone just to watch podcasts. That's the major reason I am more comfortable with listening to them while doing some other activities at the workshop.
