Went back to it's owner last Friday. However, today the replacement showed up, and it's MINE! Mine's black. It's even quieter than the CAT. In fact, no hum at all. A hybrid, after all. Frequency response $\pm .5\text{dB}$, 5 Hz to 50 kHz Distortion (THD) $< .01\%$ Noise & hum 100 dB below 1V RMS output Not the "magical" sound of the CAT but excellent nonetheless. Happy again.
