Prince wrote on Mon, 30 March 2026 09:21 There are songs, mostly the R & Bs, that I can sing when I want to relax. I've even had experiences where I slept off while playing some soft songs. So, this is totally normal for me.

Listening to R & B genres is mind calming. So, I would want to know if you have favourite tracks that you play or you just go with anyone that you place your hands on?
