Bercle wrote on Thu, 08 October 2026 01:07It is all about interest! I've got a cousin who is 5 this year, but he is already taking classes on how to play the piano.

It has to be how much hungry the kid is towards learning how to play any equipment. Once they show the desire, there is no time to waste.
You are on point. The interest of the kid on learning music is crucial. I don't believe that it has anything to do with age at that stage but the desire to learn.
