Are these any good. Specs is 2500-15000. I saw a pair at a local store selling these for $225. Are they worth that much. I believe they still have original diaphram.I plan to buy them and pair up with a pair of JBL 2205 that I have. Thanks in advance.

Sorry, I never used the 2402. I used the 2405 instead. That's why I didn't respond.However, since nobody else replied, I'll give you my 2¢. You'll need a midrange to go with the 2205 and 2402. I used to make speakers with 2205, 2105 and 2405. That's a truly excellent combination.
