Hy Wayne ...has you modeled the new Eminence basslite S2012 .I think that is a new step from the Delta 12 LF ,in Winsd model great in a box of 5.6 f3 and I think that in your program could shine . its specs are (Qts = 0.48) (Qes = 0.51) (Qms = 5.5) (Fs = 51 hz) (Xmax = 5.5 mm) (Vas =90 l) (Spl = 97 db) (Pwr = 150 w). So what do you think ..thanks

Looks to me like it would be fine for use in boxes from 1.5ft3 (43 liters) to 7ft3 (200 liters) tuned to 40Hz. When used in the smallest box, f3 is 70Hz, in the largest it's 35Hz.
