Hy Wayne ...has you modeled the new Eminence basslite S2012 .I think that is a new step from the Delta 12 LF ,in WinIsd model great in a box of 5.6 f3 and I think that in your program could shine . its specs are (Qts = 0.48) (Qes = 0.51) (Qms = 5.5) (Fs = 51 hz) (Xmax = 5.5 mm) (Vas =90 l) (Spl = 97 db) (Pwr = 150 w). So what do you think ..thanks

Looks to me like it would be fine for use in boxes from 1.5ft³ (43 liters) to 7ft³ (200 liters) tuned to 40Hz. When used in the smallest box, f3 is 70Hz, in the largest it's 35Hz.
