Nope, I'm not talking about the 2002 Live CD or DVD, although they are both very good. I'm talking about live in Toronto, at Massey Hall over the past weekend and it was one of the best concert I've been to in many years. The fact that Massey Hall is a real concert hall was a big bonus.That girl can really sing. And she is just as nutty in her live performance as she is on the DVD. The band was also outstanding. If she and her band ever swing by your part of the country, I highly recommend you catch the show.

Garman you lucky guy. Thats a concert worth seeing. Did she sing a lot of the mountain stuff or mix it up with some of that newer, jazzier music she's been doing.To anyone who is not familiar with her, she has the most beautifull high lonesome voice; like the young Dolly Parton. And she can play. So; what went on G-man?

The Dobro next to her on stage is a wonderful instrument beautifully played but, when she gets to fiddlin', damn, it is the King of instruments and she just might be the Queen!
