Akhilesh Bajaj brought a CD by Nana Mouskouri to GPAF that I just fell in love with. I'm gonna buy a few of her CD's, and I wanted to give her a mention. Maybe you guys already know about her. I just thought she's fabulous.

Looking for a site that has samples. I know I have heard her; she's been around for a long time but I can't remmember the songs. The Amazon site doesn't seem to have a sampled CD.

The Amazon site has samples. Click on an album and scroll down. You'll find samples right above the reviews.
