I can send you the v1 plans but not v2. We have them done, but it will be another week or two before we have them compiled into a package of image files that are ready for E-Mailing.

I can wait for the v2 plans. But in the meantime I would be more than happy to have the v1 plans so that I can study it and get a good grip before I venture out.Waiting,Roland.

Hey Wayne,Would these be a good match if I already have a pair of V1s? I've been thinking about getting another pair made-Josh Billings

Each of the three versions (proto, v1 and v2) can be used interchangeably. Response is just a
