Neat little primer. Simple, easy to get arms around it.

Glad to hear it. Was worried about it being factual. Gonna study it some more. I have on hand a 6.8uF Obbligato; close enough to use alone as C1 or needing to get to full 8uF?

Make it a little bigger. Add a 1uF cap and it'll be good.

Wayne, I think you mean in parallel for the caps for a larger value, right? Regards, Ron
