Hello Wayne, I'm gonna build another of your fine speakers. This midhorn of yours really intrigues me. So if I could procure from you plans to carry out my scheme I'll thank you till the wind don't blow, the grass don't grow and the river don't flow as the little big man said. I'm planning on a 4pi bass bin with the jbl 2226h, midhorn and b&c 250 tweeter. As a potential tweek I've cosidered having the choice of doing an active crossover from the bass bin to the midhorn. I can change slopes on the madisound crossover boards I have and wonder if a first order slope is compatible as a facimile to the passive crossover. Thanks.Rick Jayhawk
