Try viewing/printing with a paint program. If you still have trouble, I can print a copy and mail it to you. Printed plans come included with kits too.

Got it Wayne thanks. You make it very hard for one to decide what to build.Pluging in key words in the forum I get more and more imfo on every system. Thinkin of pi 7 now. Might be more than I need. And if I build them I have no where to go from there. Could end my speaker building hobby. ha
