Just wanted to say a big Thanks to Wayne for his help on my crossover issues this last weekend. My system is similar to the 4-pi, except I have a traxtic (sic?) horn on top. I've not built it yet, but it looks like an excellent starting point is going to be the new 4-pi crossover. Thanks Wayne, much appreciated!!

Glad to help, Steve. It looked to me like the crossover you had was pretty good too, but I agree with you that the one I'm using will work very nicely on your setup. Nice smooth curve. Love your new house!
