I came across this driver in my stocks... not sure where I got it but can you guys suggest a enclosure size and port tuning for optimum performance... Eminence sent me these T/S parameters:

RE OHMS	5.73	LE MH	1.65	QM	5.12	QE	.390	QT	
.360	XMAX MM	6.20	BL TM	18.54	EFF %	3.10	FS HZ		
41.00MMS	GMS	91.38CMS	mm/N	.1649RMS	NS/M	4.5956VAS	LTRS	183.28SD	SCM
889.59EBP	104.4SPL	dB	96.9	thanks!

Forgot to mention: 3" vc, 95oz. Magnet. Not sure the RMS wattage. It's a cast frame, fully ribbed cone ala Basslite C2515 and a big felt dustcap.

From the T/S specs, it looks like it's similar to many other prosound woofers. It trades a bit of extension for efficiency, so you might want subs with it. That said, it's pretty much a drop-in replacement for any speaker that uses the Eminence Omega 15 or JBL 2205, 2225 or 2226.
