I love the way they write a paragraph supposedly telling you how it works; then the whole paragraph tells you; "Just place it on the CD for 10 Seconds...'; so I guess that is how it works. " But this amp goes to eleven!"

When I was young, I thought that people were basically decent, with a few flaws. As I get older, I have decided that people are basically evil, with a little good. (Some exceptions, I suppose.)

I understand perfectly. Absolutely confirmed misogynist myself. Never thought people were

intrinsically good; mostly self-absorbed and out for themselves.You gather your good friends you can trust and your family and keep a sharp eye out on everyone else. I don't think I have ever been proven wrong.
