Ever seen the show Fear Factor? I've only seen about 5 minutes of it, but the little guy who's the host? He's Joe Rogan.In another universe he's one of the funniest bastards you ever heard.I've listened to this thing half a dozen times over the past couple of weeks and I still laugh out loud at some parts. The Anna Nicole Smith bit is just killer.I've been criticized for my "East Coast" sense of humor (I miss Opie & Anthony a lot) so what's funny to me may not have very wide appeal.
