I've been waiting for this since the day the last season ended. 24 is the best show on television and the buzz is that tonight's two one-hour episodes are superb and heart-attack-inducing.

I've never watched it either, although I've been thinking I probably should. Just a couple hours ago, a good friend called and emphatically told me I should watch it right away. I was busy and couldn't, but think probably I'll catch up by renting the DVD's of the series one of these days real soon.

Don't know, I never saw an episode. But I'm told it's undercover CIA stuff, like secret missions

and conspiracies and what not. Every episode covers a 24 hour period, so I hear.

Well check it out. Is that the show with Keifer Sutherland in the lead role?
