http://audioroundtable.com/Dungeon/messages/16.htmlTo whom it might concern.The post above was not authored by Roman Bessnow. I am who I am and I stay OPENLY behind my word, my actions and my opinions.I told it before and I would like to say it again that my sincere definition of justness and righteousness is an eradication of the ART and AA form the face of earth. Nope, I do not wish them just to die. I would be grateful for if all their families, all their children, all their percents, all their friends and everyone who ever came close within 10-miles would be wipe out form the face of the Earth. It is not that I am a vindictive of cruel but if that happen then I would be gratified and woul laughingly accept it as an ultimate God's wisdom.Nothing further should be said and I demand that impersonated post above to be deleted.Roman Bessnow
