I think you should rethink your behaviour. Since you've called Heyboer and claimed to be a friend of mine, and contributor to my work, I've informed them of your real standing. The moderation in Group Build took down your post where you admitted doing it. This does not mean you are any less sleazy for their removing yor post, just confirmation of it.When are you going to cease your sleaziness and remove my edited, and misrepresented email to you? Or are you happy with your slimy behaviour? Crawl back under your rock.cheers,Douglas

just a statement of your slimy behaviour in public. Since you continue to escalate, I will continue to make your nastiness public. Seems a shame, since our collaboration does result in advancements. Since you have chosen another path(or one you're comfortable with), I'll just continue without you. Your fight with Andre Jute was not productive, why do you feel the need to attempt similar things, with similar tactics with me?cheers,Douglas
