A while back I mentioned the recording of What's new by oneof the Stan kenton bands on a cd called "Contemporary Concepts."Rather than buying it, thought it should be a library acquisition.So they bought it and while I was down there I noticed an LPalbun-sized booklet on the Russo Holman charts which foes with a 4 cd set. I picked up the book just to read.And I was prompted to write and thank Bob Parlocha for playingit in the first place on his syndicated show. In the mailI said how certain things stick in my head and which the Kenton Sound reminded me of. One such tune was by Sonny Burkefor an old tv show called "Hennesy." Bob wrote back andsaid that his wife was buying him tv show soundtracks. He daid"Hennesy" was at the top of his list of unfound favorites.Like minds think alike I guess but it sure was surprisingthat in all the world there are 2 people that think about thisstuff.
