One of the German members of the Tube Collectors Association has built aNixie tube clock. But it's not a typical Nixie clock. The guy decided tomake ALL the electronics out of tubes. Some people have far more time ontheir hands than I do.Text is in German but the photos will make your jaw
drop.http://www.jogis-roehrenbude.de/Leserbriefe/Bruegmann-Digital-Roehren-Clock/Digital-Roehrenuhr.htm

Hey thats something else. But we don't hear from you for a year. The guy who has forgotten more about tubes than anyone here will ever know but no tube posts. Now in the dungeon...a clock. I would have put that in The Tower. Timely.
