Something that should be pretty good. If it's even half as good as Sailing to Philadelphia it will be great.

Nice pick MWG. EmmyLou seems to be one of those artists that found a niche then got stuck in it. She is a great performer and Mark Knopfler is a great guitar player. This one looks to be a keeper.

I just received the David Gilmour DVD along with his new CD On an Island and a older Pink Floyd DVD Live at Pompei. So hopefully by this weekend I'll have them all listened to and watched and write some sort of review if anyone is interested.

With bated breath MWG; I'm looking to see what you say because I want to get the Gilmour CD.
