I don't remember where I got that photo. It's awesome, isn't it? Frances Langford and the Glenn Miller band on one of thier many USO tours.

I love that movie! Dr. Fronkensteen!

Teri Garr never looked better and Gene Wilder was never funnier. It's Marty Feldman's best role too, in my opinion. I always knew Mel Brooks directed this movie, but I didn't learn for a long time that Gene Wilder actually wrote it. Just a little trivial trivia, perhaps you already knew.

Yeah, Wilder is a Frankenstein movie buff and owns some of the original equipment from the Boris Karloff movie that was used by Brooks.
