Hi Wayne,
About 10 years back I built the "afterburner" using Pi alignment and have enjoyed them very much. I had also gotten the drivers (Alpha 10 and KSN1038) for the Pi 2. You had sent me the plans back then but after 10 years of computer changes I can't seem to find them any more. Could you please send me the plans for the Pi 2 and the Pi 2 towers? Its time for downsizing.
Thank You!
R.Stevens
