I saw the first trailer for this show tonight at the premiere of X3. There doesn't seem to be much out about this one on Google yet, but I wanted to start the thread so that we can get it going.You can watch the trailer on this link

When we went ot midnight showing of X-3 we sat with our jaws dropped.IT looks wonder4ful.My hubby loves these comic book guys.hes is also in cosplay. So he is working on his makeup and duplication of the demon outfit.I was never into the comics, but the longer we are married the more I enjoy watching the comic books come to life.We keep checking for new release dates through the industry papers.julie

Yeah, I also like X-Men movies though I must say I have not seen X3 yet. If you're looking for outright fun then, this X-Men can provide us with plenty.
