I dont know how to begin... m. Night has created some unforgetable movies. And after his last couple I've been pull'n for him, hoping he could do it again. Like The Village, it was okay, but a defient deteroriation from the Sixth sense. Tonight I witnessed the end of MR. NIGHTS CAREER!! This movie just plain sucked ass.. I wont give any plot spoilers for those of you who shall brave this like I but its on par with the likes of DreamCatcher and some other title that alludes me right now because its suckdom was too much to withstand. Though this movie yielded some very promising looking trailers. The Fountain, looks killer, The Prestige, is intriging and the horror Flick, the Descent looks like a $1 flick so..
