Hi Wayne,

Does the 8 Pi use the same midhorn as used in the 7 Pi corner speaker? If not, could you outline some of the differences?

Also, is the 10" Eminence woofer used in the 8 Pi the same as used in the 7 Pi corner speaker?

Thanks

Norris

isn't as well suited as a dedicated midrange. But its electro-mechanical properties make it perfect for use as a midwoofer, or for rear-tuning for bass while front loading for midrange with the horn. More information in the links below:
