Okay everyone, Iron Man 2 comes out May 7. Let's get some reviews going here and let everyone know what you think. I'm excited to see it but will wait for the lines to die down.

I am so looking forward to seeing this movie!

I can't go this weekend or next because of LSAF. But I'll be there shortly afterward!

Well, I just got word my nephew is going to the midnight showing at our local theater. I'm sure I'll hear back from him because he is a HUGE superhero movie fan.

I have not seen it yet, but my older brother went and saw it this weekend, and he said it was just as good as the first, if not better.

The one thing that I really like in the first movie was that toward the end, it opened the door for more comic book characters to come out. I think I may wait another week before I head out to see the movie.

A top notch movie for those of us who love the old superheros. I guess I've never grown up because I really, really loved it. I am going to get both movies to keep because I can watch these over and over.

I thought that this was a really nice movie. Usually a sequel of a good movie does not match up as people have higher expectations but this one was totally worth every penny!

I never got around to seeing this movie in the theater, so I just bought the BluRay and watched it last night. I loved it! Not only were the action scenes cool, but it has Scarlett Johansson in it too!

Yeah! I have watched it several times now. I think I like Iron Man II better than Iron Man I. But of course, I like the series.

Here are good deals for Iron Man 2 at Amazon:

I look forward to watch Iron Man III soon. Is it in the works?
