I just received my copy of Vacuum Tube Valley Issue #20. Superb! You guys gotta give those guys a call and get your subscription in. Issue #20 Contents: Kimmel Parafeed SE Amp7591 The Space Savers Omega Speaker Review NOS: "Next Online Scam" Sargent Rayment Story Welborne DRD 2A3 Amp Dumpster Compactrons Designer profile Steve Carr Scott 299C/LK-72 Amp Check out their back issues too. They have an interview with Paul Klipsch, one with David Hafler, tons of bench tech information and lots of other really good stuff. So check out their list of back issues, and look through the contents pages to find the ones you want.
