Ted Koppel's (news broadcaster) son was found dead in his apartment. He was 40 years old. The only information that is being released is that Andrew Koppel spent the whole day drinking. I can't wait to hear more information about this.

Have you heard anything different?

Wow I didn't hear that. I don't understand how or why people feel it's that necessary to drink that much alcohol. 40 years old is way to young to die from alcohol poisoning.
