I ahve an old JC penny stero system that I got when i was (mumbling age) and it still works. It gets great reception. I want to give it to my daughter but I also want to get her some 8 tracks tha go with it.Does enyone think that theer ae any around anymore? or is theer a unit I can get that can plug into an 8 tracks to turn it into cassette?j

Might want to check the resale shops for tapes.

They made an adapter years ago that allowed you to play a cassette in a 8 track machine. Finding one might take a while though.Mike

That sounds like a really neat idea! I wish I'd have some of my old 8-tracks, but I don't. I'll bet if you check some of the online auctions, you might hit a goldmine, though.
