The tv show was great but on consideration, the film was a big let down.Battlestar Galactica is the new benchmark in what sf can do.I'm hoping that HBO takes up the challenge. With Rome undertheir belt, all they need is some primo writing and add the visual stuff.I'd suggest Samuel R. Delaney.

Ifound teh movie to be just as good, albeit it was like a condensed version of the series.I am an OLD Battlestar Galactica fan.. sorry. I just can seem to get Starbuck as a girl. It was just so much more fun with Dirk Benadict.I love the work of JOss Whendon and Sam Raimey. Now there s athough an HBO or SCiFI channel series on evil dead.
