Some friends of ours have pestered us for a month to watch that movie. Well we finally weakened and watched it. I was very surprised. I actually enjoyed it. I think what made it interesting to me was identifying the voices of the various cars. It is a nice movie that surprised me in that it held my interest. There are lots of little details that add to the movie I won't go into. It's not academy award material but is worth seeing once.

I've seen that movie about 3 dozen times. My kids love it!

I liked it a lot too. Saw it in the theater, and will probably buy it on DVD!

I've watched the movie entitled Cars in the movie theatre with my friends. We enjoyed watching the movie while eating popcorn. But I was disturbed of the two lovers on my side. They were kissing inside the theatre and I found it very disturbing. Nevertheless, I enjoyed myself in the movie theatre.
