I finally picked up a copy of Bromberg's "Wood" a while back and I just CAN'T stop listening to this CD. Thanks to whoever recommended this from last years Fest.That's one of the greatest perks of the Fest. You get to experience music you may have never known about!!!!

It's good to hear that you're an avid fan of Brian Bromberg. Brian is a talented man who's capable of playing straight-ahead jazz and funk. I have a copy of his album Magic Rain.
