Been listening to my one album of hers, Love Me Again, over and over.It sat in my collection for a couple of years unplayed until recently; don't even remember when or why I acquired it. Best remembered for some MOR radio hits like "Sweet Inspiration" and "Slow Dancer", her voice and country blues interpretations really appeal to me 20 years later.Side men are terrific including Mike Utley, Bass, Jay Graydon, electric Guitar (he rocks!) and Booker T. Jones, Piano and vocals who also produced this well-recorded album. Big high-efficiency Pi speakers will love the bass and drum tracks and Graydon's excellent solos. A great change from DK!

Good recommendation.  Think I'll grab a copy of that album right now!

Picked it up at the local thrift store today for 10 cents.  Pristine condition.  Have to put it on later and see how it sounds.
