If you are old enough to remember him you will love this album. He takes various songs and covers them with the original artist accompanying him either vocally or instrumentally.Lots of big names and good songs. To hear Jimmy Paige's guitar and Jerry's piano on Rock & Roll is pretty nice. Jerry's voice is still good which for someone his age is unusual.

What I like about him is he doesn't take a back seat to anybody. Some of the modern pink noise musicians could learn a lot form that old rocker.
