Watching the DVD live show tonight. Mark Knopfler, Emmy Lou Harris and an amazing band of Nashville musicians. A companion CD of the concert packaged together with it. Great stuff, even through my powered little Pork, errr, Polk PC speakers. One of the guys at Hagerman Circle tipped me to a \$7 Radio Shack mini jack "Y" to R-L RCA's that will allow me to play through my Marantz receiver and the Altec/University almost 2 Pis. Then I'll really hear it.
