Pavel Macura interesting DIY amplifiers. He is a great designer from Czechia. Especially I find his preamplifier be real topclass! <http://web.telecom.cz/macura/prestd.html> He has managed to get 2nd down to 120 dB and also get 3rd harmonics down to 120 dB!!!! Well, worth a visit. He also can be found at diyaudio under username 'PMA'. Anyone else built his amplifiers? Anybody other interested in same designs? Any comments welcome. Halojoy from Sweden
