Going to work on five sets this winter. When my work gets slow.

I already have all the caps ect. But this set needs a speaker could i use a new type on this set? Has the transformer on it.

Thanks Capbuster.

Is it a field coil speaker?

Even if it is, you can use a fixed magnet speaker as a replacement, just use an inductor in place of the field coil.

Oh, OK, if it has a fixed magnet then finding a replacement speaker will be easy. Pretty much anything that will physically fit will work.

I have searched all the site i know. Could someone find a pic of this set. Need to restore the finish ect. This one seems to elude

me. It must be rare or something . Radio museum or radio attic ect

NOTTA. It is a console with phono.

Thanks much Capbuster.
