I love the movie "Bucket List" and forever will. I think Jack Nicholson and Morgan Freeman are great on screen together. Do you have a bucket list? I do.

I think this movie is awesome! After watching this movie the wife and I did make a bucket list and it hangs on our fridge. We just put down a couple things we want to do this year and then every year we will make a new list.

Some of my friends in the same age bracket as me feel the bucket list idea is depressing but I like it. The movie is very good too. The characters are believable and not overdone.

Not seen the movie but I am familiar with the concept. I recently found a bucket list I made just as I started college. It was quite amusing to see the things I felt were so important back then!

Jack Nicholson and Morgan Freeman are awesome actors and I thought the movie was great. I am going to make myself a bucket list since I recently found out I have COPD and from most the things I have read about it there is no cure and eventually you pass from it. I am not worried about it really though because I still have plenty of time.

I still haven't had a chance to see this movie, but the whole "bucket list" thing has had me thinking about all of the things I still have to accomplish before I die. I am so willing to just give up all of my worldly possessions, (which aren't much, believe me!) and just travel the world and see things that I have never seen!
