I am going to treat myself to the Director's cut version of the Halloween sequel. It seems like the tight time of year to enjoy some gore and then you have the extra scenes to enjoy too!

You are right about the right time of year and I bet the director's cut would be awesome. It has been to long since I watched any of the Halloween movies. I think I may join you but I may get them all through netflix so I can see them again from beginning to the last one.

I actually spent the whole weekend watching horror films. I love this time of year! I saw Constantine for the first time, starring Keanu Reeves. I don't know why I didn't see it before, especially when it was on the big screen. I can only imagine how good it must have been!

Constantine is an excellent movie, and your're right, Danny - it was great on the "big" screen. I can't even imagine watching a horror film on regular TV - can't really get a good "scare" that way!
