I need some recommendations for an amp and preamp. I want to move into tubes and single drivers and am looking for opinions.

Depends how much \$ you have to spend. It's possible to put together a good SE amp and single-driver speakers for under \$3k. And go up (and up) from there.....

Aug. ish of _Nuts and Volts_ mag. has an article on a smallstereo amp kit. For the complete kit, it's \$265.
