I've been watching Amazon's Black Friday sales. A 42" went for $300 yesterday. Rumored to have 50" for around the $600-$700 mark tomorrow, Cyber Monday. I'm in line for a 26" for $230....C

I cannot wait for Cyber Monday sales. I got a couple of laptops on Black Friday but missed out on the 42 inch TV. You can't be everywhere at 1 time.

Anyone seen any good sales yet for Cyber Monday?

Got a couple of 2TB external drives on BF.

A friend was at Walmart to get the 32" $198 tv. They ran out and started handing out the Samsungs which sold for $100 more for the same price. Then when they ran out of those they started handing out the Vizeo's which were $200 more than the original ones for sale. He got a really good deal for his wait!!!

On Black Friday (October) 26 I got a great deal on a 50" flat panel, high definition TV for $497 at

Walmart. I thought that was a pretty good deal. I have it all set up now and connected to my DVD player, etc. It works great.
